**V. President's Report – Kerry Cummings, NWMC President and President, Village of Glenview**

**A. March Membership Meeting Program: CMAP**

President Cummings introduced Mr. Randy Blankenhorn, Executive Director of the Chicago Metropolitan Agency for Planning (CMAP) who discussed the Go To 2040 Regional Comprehensive Plan implementation efforts. Mr. Blankenhorn thanked members for their participation in creating the Go To 2040 Plan and stated that it reflects issues that the mayors feel are important to the region and their communities.

Mr. Blankenhorn stated that the plan is about economic prosperity and strong communities and that the mayors must believe and engage in the process. He stated that Springfield and Washington are not going to solve the problems of the communities even though they will still provide some funding. Communities must continue to think of new ideas and ways to raise necessary revenues to provide public services and also continue to invest in the infrastructure that drives the economy of this region.

Mr. Blankenhorn stated that they have received a grant and started a Local Government Technical Assistance program to embed people at the local level to

provide assistance to the towns in securing funding and to develop and update comprehensive plans, zoning ordinances and economic development corridor studies.

Mr. Blankenhorn stated that CMAP is also working with the RTA on a program to work across agencies to make sure they are fully utilizing the funds available to provide municipalities with what they need. He stated that a call for projects will be issued approximately every 6-9 months and activities will be posted on their website.

Mr. Blankenhorn stated that there is a call for Congestion Mitigation Air Quality projects and he urged local governments to apply. He stated the need for the federal government to focus on problems and provide funding at the local level where it will do the most good.

Mr. Blankenhorn also commented on the disproportionate share of funding the northeastern region receives in state funding compared to the population in that area. He stated this requires examination of needs based programming and that it is important to the economy of the state to have the right infrastructure in place in the areas where they provide the most economic benefit. Mr. Blankenhorn then answered questions from members.

**B. CMAP Regional Tax Policy Task Force**

Mr. Blankenhorn stated that the Go To 2040 Plan called for the creation of a regional tax policy task force to make recommendations to the CMAP board on state and local tax issues. The task force is composed of business, municipal, county and state representatives and is charged with coming up with recommendations for the CMAP board by next January. Mr. Blankenhorn asked that mayors work with Conference staff to stay involved in the process.

**C. MWRD Infiltration/Inflow Issue Update**

Mr. Staron stated that he has provided updates on this issue to public works directors and there was a meeting on February 28 with the MWRD Board and municipal representatives to discuss the Infiltration/Inflow (I/I) and I/I Corrective Action Program (ICAP). He stated that President O'Brien of the MWRD has recommended holding a Sewer Summit and members will be updated on the progress of this issue. The MWRD and EPA staffs have stated that the 150 gallons per capita per day standard is a target and not a mandate. Mr. Staron stated that they are working on how the actual permits will be worded and must go through the Sewer Summit process to address the infiltration and inflow in a reasonable way. He stated that the MWRD plans to work with the municipal conferences about the membership for the Sewer Summit and he will keep everyone informed as they move through that process.

**D. NWMC By-Laws Subcommittee Report**

President Canning stated that the By-laws subcommittee reviewed the Conference By-laws as part of a general review of the Conference's foundational documents. He stated that most changes were routine in nature but that the affiliate membership and non-voting participant categories were eliminated. The committee also recommended that moving forward Conference membership be limited to municipalities only, and that Northfield Township would be grandfathered until such time as it decides to withdraw

from membership. He stated that additional changes provide for written authorization for a representative to vote on a member's behalf at a board meeting and deletes references to specific committees, but acknowledges the ability to create additional committees as needed.

Motion to approve the By-laws was made by Mayor Turry. It was seconded by President Darch.

Trustee Preston made a motion to amend the By-laws at Article V, Section 2 – Officers A. to include the following new wording: “There shall be a President and Vice-President elected from among the Delegates in office at the time of election. There shall be a Secretary elected from among the Delegates or Alternate Delegates in office at the time of election, “who cannot be from the same municipalities.”

Trustee Preston initiated discussion on the proposed amendment in Article V and stated that mayors or supervisors are considered Delegates and those who are not mayors or supervisors are considered Alternate Delegates. She stated that Alternate Delegates are not eligible to hold office. However, the alternate delegate who is the chief administrative office of the village is by title the only person who can be treasurer. She stated that the National League of Cities recognizes elected public officials other than the mayor or supervisor and who have served as officers of their organization. Trustee Preston stated that she felt that anyone who has attended the monthly meetings and who has served the group as a delegate or alternate delegate should be given the opportunity to be the secretary of the Conference. There was discussion by the members on the amendment to the By-laws.

Motion to approve the amendment to the By-laws was seconded by Mayor Vole. A roll call vote was taken and the amendment to the By-laws was approved: Yes – 15 and No-11.

Motion to approve the By-laws, as amended, was made by Mayor Turry. It was seconded by President Darch and approved.
